## **How to Deal with Refugees?**

Europe as a Continent of Dreams

2015 was without any doubt the year of migrations. Over the subsequent two years, we have certainly seen the migration flows reduce, but it was never going to be possible to halt them altogether. From the outset of this phenomenon, numerous academics and researchers have dedicated themselves to the topic. They analyse the causes, the course of the migration flows, parallels and impacts, as well as possible scenarios of the migration movement. A wide-reaching debate has evolved on the topic of migration, to which the authors in this anthology were also keen to contribute conflict regulations attempts. In this publication, historians, political scientists, philosophers, sociologists, geographers, human geographers, economists, literary scientists, legal scholars, theologians and psychiatrists from a range of European and Non-European countries have each contributed from their individual standpoints.
